We know that breast cancer screening (mammography) can identify breast cancer early, but at what cost? As with any screening test, mammography has benefits and harms and understanding them is an important part of making an informed decision about screening.

Join Dr. Jonathan Sussman and Dr. Cathy Risdon as they discuss the latest evidence on breast cancer screening and reflect on the impact this evidence has on their interactions with patients.

All are welcome to attend this free public event, which will include an opportunity for audience questions. Please register online at <http://bit.ly/1FzSILX> to confirm your attendance.

Wednesday
March 25, 2015

7 – 8:30 p.m.

McMaster Innovation Park
175 Longwood Rd. South
Hamilton, L8P 0A1
(Free event parking)
